About

VHS Learning (VHS, Inc.) is a nonprofit providing world-class online programs to high school students and schools everywhere. We partner with all types of schools—urban, rural, public, and private—to expand their catalogs and offer classes that could not otherwise be offered.

With supplemental courses from VHS Learning, you can accommodate a huge variety of course requests/student interests without worrying about class size or finding a certified teacher for each class. For example, 25 students can take 25 unique courses—logging in from your school’s computer lab during their study period or at home—while you focus on delivering face-to-face courses. You will have access to student progress reports and grades. Schools grant credit for VHS Learning courses and typically include them on local school transcripts. Students who enroll and pay independently will be provided with transcripts to submit for local school credit.

Students choose from more than 200 teacher-led high school *courses ranging from Accounting to Mobile App Development, from Graphic Novels to Career Readiness. We offer 33 AP[®]* options, core courses, engaging electives, credit recovery, and flexible learning opportunities.

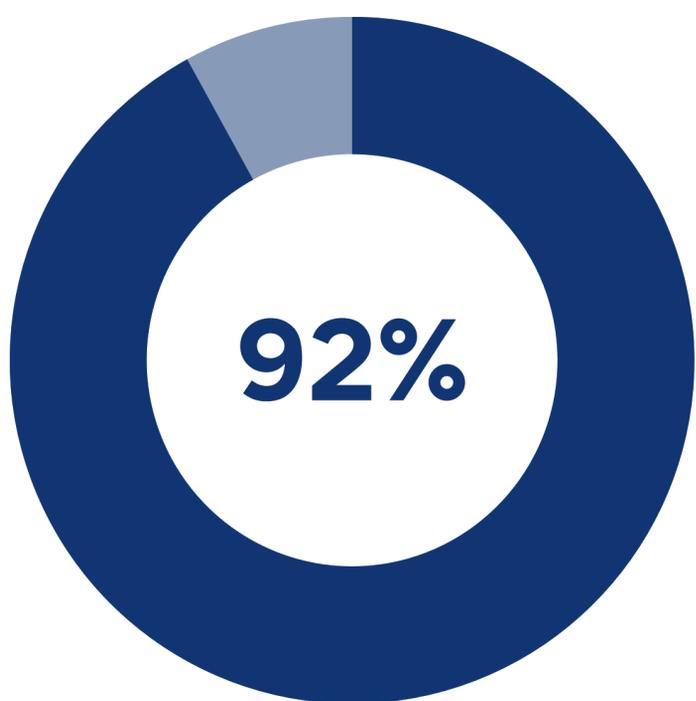

USE VHS LEARNING TO...

- **Expand your catalog** - Your students can take courses that might not be available face-to-face including AP[®] courses and unique offerings that help students explore career paths.
- **Solve scheduling conflicts** - Fitting each student into their desired courses is complicated at best and sometimes impossible. You can give students their top choice courses by offering them online through VHS Learning.
- **Make up credit** - Students in danger of not graduating or matriculating to the next grade can use our credit recovery and summer school options to recover credit online.
- **Address unique challenges** - If you unexpectedly find yourself without a teacher halfway through the school year, VHS Learning can run a course just for your students. Our self-paced courses give students who cannot follow a traditional semester schedule the option to take core and Advanced Placement[®] courses.

Our **MISSION** is to provide high school students with world-class online courses and teachers that ignite a passion for learning.

Our **VISION** is to cultivate a diverse global learning community and foster a safe and supportive learning environment that nurtures students and gives them the unique educational choices they need to be successful in careers and life.

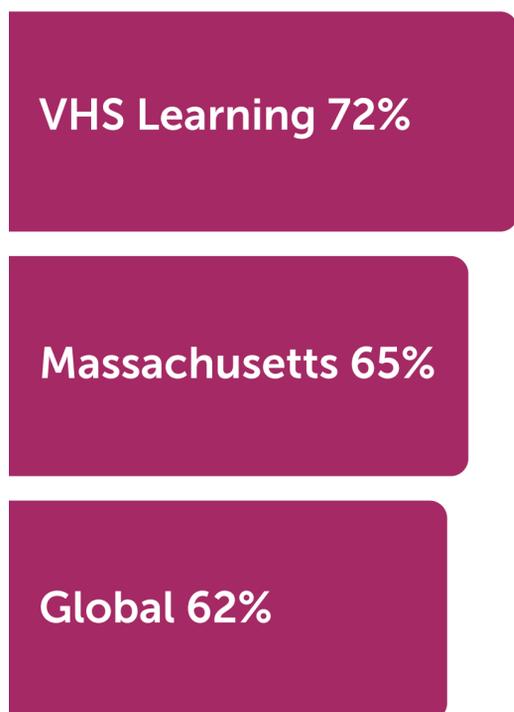

92% of students passed their courses with a grade of 60 or higher

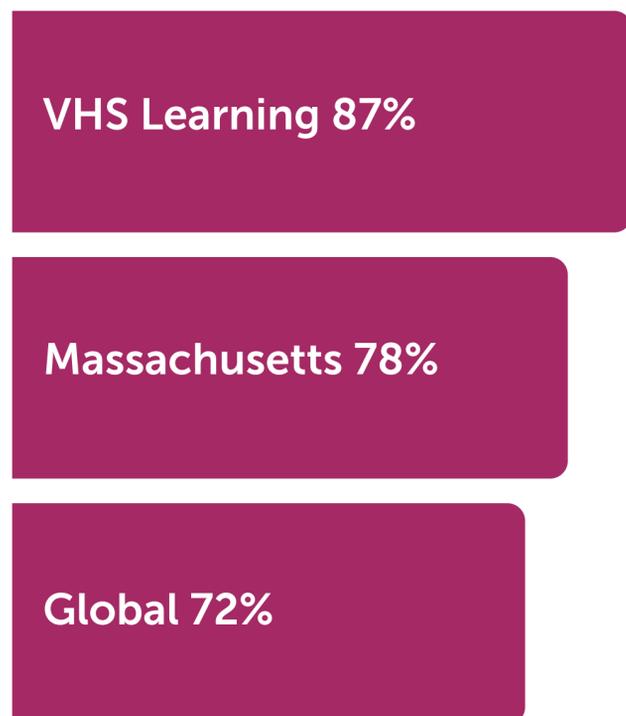

AP[®] Pass Rates

Our program has a long history of giving students and schools choices, and we have a strong track record of success. VHS Learning student scores on the AP[®] exams have surpassed global averages. Below is a sampling of VHS Learning 2025 AP[®] pass rates compared to Massachusetts and global averages.

Satisfaction

All students deserve a quality education. Our program has a long history of giving students and schools choices, and we have a strong track record of success.

School Retention Rate

91%

% of partner schools in 2023-2024 that continued to partner in 2024-2025

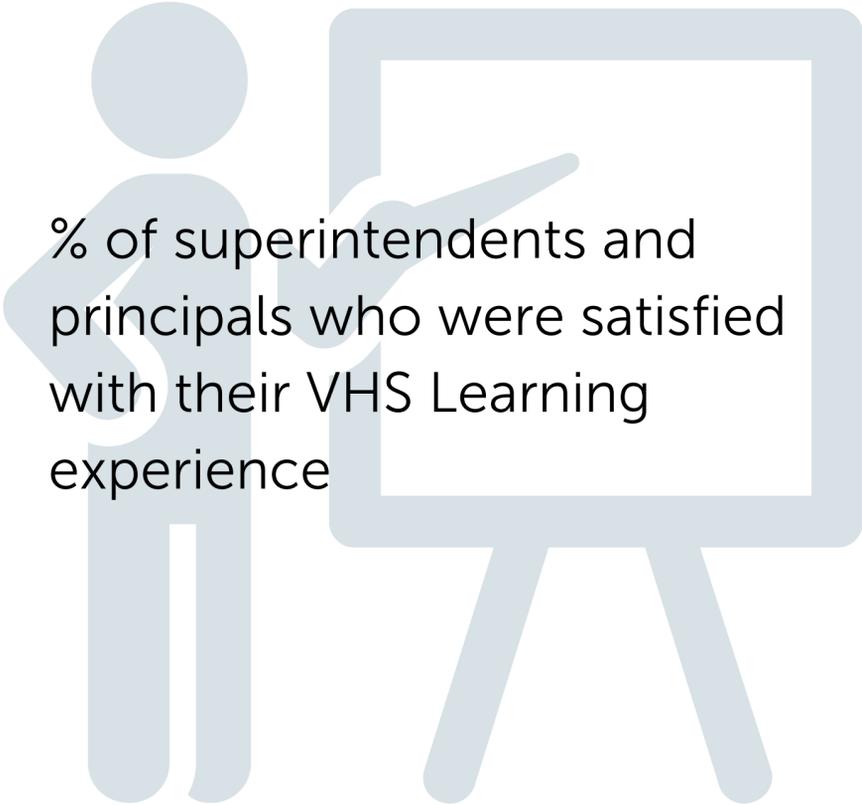

Administrator Satisfaction Rate

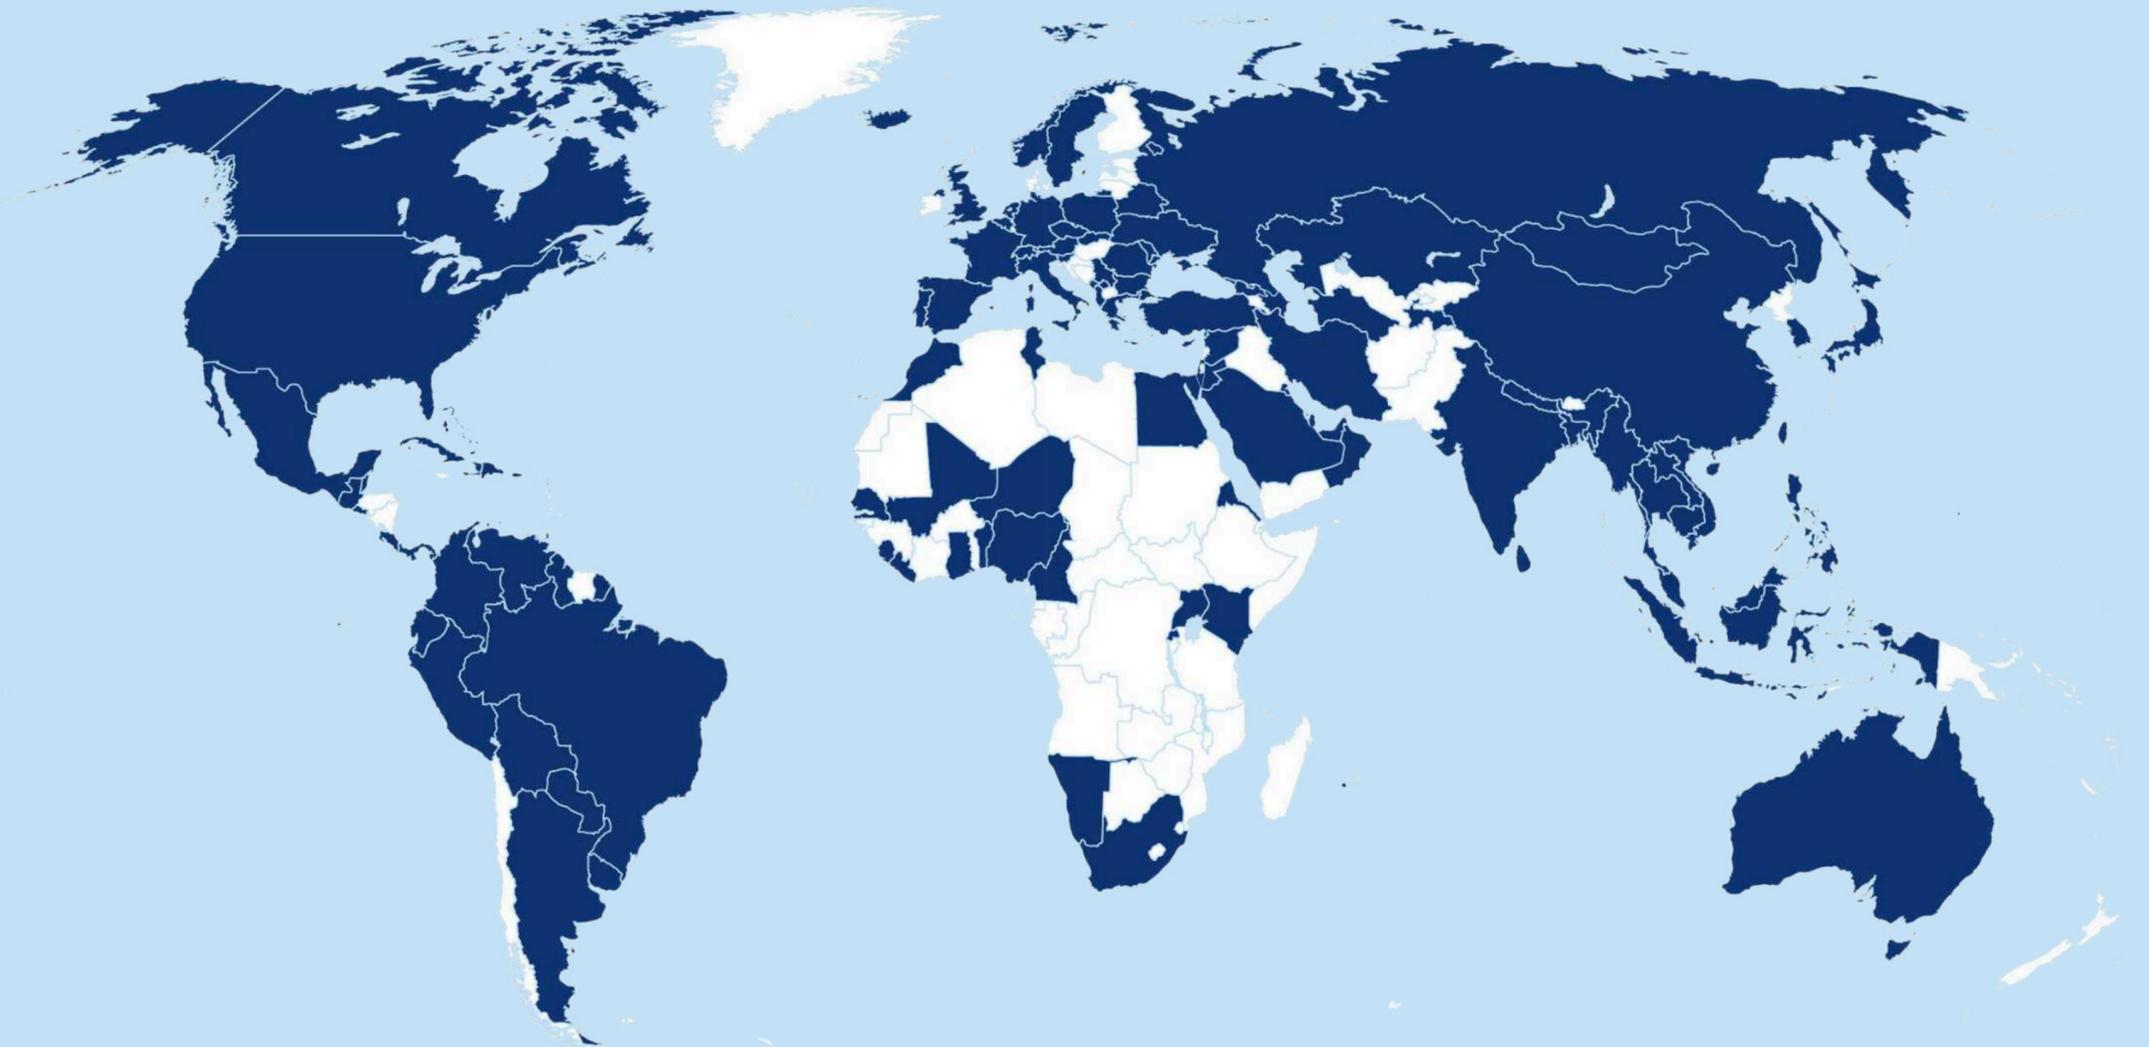

94%

% of superintendents and principals who were satisfied with their VHS Learning experience

Connecting the World

Since 1996, we've offered educational programs in **108 countries**, all **50 states and 2 U.S. territories.**

QUALIFIED TEACHERS

All VHS Learning teachers have passed Online Teaching Methodologies (OTM), a graduate-level online course that focuses on strategies for building community, facilitating meaningful discussions, and providing insightful feedback in an online classroom. Our teachers are certified in their disciplines and average 15 years of teaching experience.

SMALL CLASS SIZES

Students are enrolled in small classes averaging 21 students to 1 teacher which allows for peer interaction, personalized attention, and substantive teacher feedback.

DIVERSE CLASSROOMS

Classes consist of students from across the United States and around the world, creating the unique opportunity to work with a diverse group of their peers, challenge assumptions, and broaden their worldview.

FLEXIBLE CURRICULUM

Students can complete their coursework any time of day while meeting weekly deadlines and due dates set by their instructors. Coursework is accessible anywhere students have internet access.

Why VHS Learning

TRIED AND TRUE

VHS Learning began in 1996 as part of a Technology Innovation Grant from the U.S. Department of Education. We were the first nationwide provider of supplemental online classes for high school students and have continued to set the standard for quality online education for over 25 years.

HIGH-TOUCH SUPPORT

Every phone call to our office connects you to a person. Requests for technology support can be submitted at any time and receive a response within 24 hours Monday through Friday.

Teachers respond quickly to student inquiries—within 24 hours Monday through Friday—and every student has a private discussion thread where they communicate with their teacher and ask questions.

EASY TO IMPLEMENT

VHS Learning is easy to implement because everything is included with your school partnership—highly qualified and certified teachers, course and lab materials, supportive staff, self-paced training for site coordinators who enroll and monitor students, orientation to help students get started, and a Service Center for those who need technical support.

ACCREDITED

VHS Learning is accredited by Middle States Association (MSA-CESS), and ACS Western Association of Schools and Colleges. All eligible courses are approved for initial eligibility by NCAA.

New teacher mentorship			✓
Direct access to curriculum coordinators			✓

PAY AS YOU GO

Enroll students à la carte with no commitment. Schools are charged the full-price of \$450 per student per semester course.

STUDENT-ONLY PARTNERSHIP

Receive a discount when you commit 5 or more students to the program. Maximize your students' success by training a staff member as your on-site coordinator. Training is FREE to new and existing partners.

TEACHING PARTNERSHIP

Save dramatically on student tuition in exchange for teaching a VHS Learning course online. New teachers must pass Online Teaching Methodologies (OTM), our graduate-level training course, to teach within our online classroom. VHS Learning teachers and their schools gain access to our subject matter experts, mentors, and a community of experienced teachers. Online Teaching Methodologies and on-site coordinator training are FREE.

DON'T SEE WHAT YOU NEED?

We are happy to discuss your school's unique needs. Fill out the Contact Us form to see how we can help.

Diversity, Equity, Inclusion & Belonging

At VHS Learning, everyone matters.

We value differences, take pride in creating safe and inclusive spaces where students belong and thrive, and are committed to ensuring our educational services represent and serve the students and schools that will use them. We believe embracing and nurturing diverse perspectives improves learning and creates an environment where all people are respected. Representation matters: a diverse, equitable, accessible, and inclusive organization better represents our global online learning community. We strive to meet these goals for students, educators, and VHS Learning team members, now and in the future.
